Digital Skills
Graphic Designing

• Completed three-month intensive graphics design course at Digital Skills, where I gained proficiency in design principles, software tools (such as Adobe Photoshop and Illustrator), and creative techniques. This program equipped me with the skills to create visually compelling graphics and layouts for various media, enhancing my ability to deliver innovative design solutions.

Digital Skills
Freelancing

• Completed three-month freelancing course at Digital Skills, focusing on building a successful freelance career. The course covered essential topics such as client acquisition, project management, and effective communication strategies. Through hands-on projects and mentorship, I developed skills in marketing my services and managing freelance work efficiently, preparing me for success in a competitive market.

Experience

Lecturer (Computer Science)
Nova City School & College

• Results-driven and passionate Computer Science Lecturer with a proven track record in educating high school and higher education students. Expertise in designing and delivering dynamic curricula that cultivate a deep understanding of both foundational and advanced computing principles. Skilled in employing innovative instructional strategies, including project-based learning and interactive workshops, to enhance critical thinking and problem-solving abilities. Committed to assessing student performance effectively and providing targeted feedback that fosters academic excellence. Dedicated to staying abreast of emerging trends and technologies to equip students for success in the ever-evolving tech landscape.
