SHAMSHER SINGH

Dedicated and experienced professional with over 5 years of combined experience in civil site supervision and security team leadership across high-profile projects in the UAE, including ADNOC and Kezad Abu Dhabi. Proven ability to manage teams, ensure compliance with safety and regulatory standards, and deliver results under pressure. Skilled in site operations, workforce coordination, incident management, and client communication. Known for reliability, leadership, and a strong commitment to safety and quality. Seeking a challenging role in a reputable organization to contribute technical and leadership expertise in construction or security operations.

WORK EXPERIENCE

Security Team Leader

United Security Group – Kezad, Abu Dhabi

- ✓ Led and supervised a team of security personnel across Kezad industrial and commercial zones, ensuring 24/7 site safety and security compliance.
- ✓ Coordinated shift schedules, patrol duties, and emergency response drills in alignment with client and company protocols.
- ✓ Conducted regular security audits, access control monitoring, and incident investigations, submitting detailed reports to management.
- ✓ Trained new security staff on company policies, safety procedures, and client-specific requirements.
- ✓ Acted as the primary point of contact during emergencies, liaising with law enforcement, fire services, and site management.

Civil Supervisor

RITAZ International – ADNOC Project, Qusahwira, Abu Dhabi

- ✓ Supervised all civil construction activities at the ADNOC site, ensuring compliance with project specifications, safety standards, and timelines.
- ✓ Coordinated with site engineers, subcontractors, and safety officers to maintain smooth workflow and effective communication.
- ✓ Managed daily site operations, including workforce deployment, material planning, and progress reporting.
- ✓ Conducted regular inspections to ensure quality control, adherence to drawings, and compliance with HSE (Health, Safety & Environment) regulations.
- ✓ Reported project progress and site issues to project management, and supported planning for corrective measures when needed.
